

Company **Profile**

Physipro is a leading provider of high quality seating and mobility products.

PHYSIPRO A WORLD OF POSSIBILITY!

A brief **history**

An entrepreneurial spirit, a remarkable understanding of human mechanics, and especially a passion for seating and positioning are the essence of Physipro, founded in 1988 by Mario Ouellette. His ingenuity, his desire to make a difference, and his ability to visualize beyond what the market offered resulted in innovative solutions that today meet the needs of thousands of wheelchair users.

Physipro is determined to continuing this philosophy. That's why its fully customizable products are among the most adjustable on the market, allowing therapists specify the exact properties their clients need.

Today, more than 30 years since the first products left our workshop, we have a team of more than 80 employees contributing to the success of Physipro.

Custom Work

“Each person has different needs and lives in a different environment. That’s why, since it was created, Physipro has devoted itself to creating highly customizable products.

“Our products are a direct result of the needs of those we serve.

What we **value**

“Every need is unique
and so are our solutions.”

FUNCTIONALITY

The functionality of our products reflects a thorough understanding of the daily lives of the people who use them.

DESIGN

Our role is to solve problems, develop innovative solutions, and invent new possibilities in order to meet the needs of wheelchair users.

CUSTOMIZATION

We design products that can be continually adapted to keep pace with ever-changing human beings and their environment.

QUALITY

Physipro has built its brand on quality. We strive to provide high quality products through careful control of every step of the manufacturing process.

“All of our products
are made in Canada!”
